

Why Top Notch Education?

Our experienced teachers, holding master's degrees in education and having over 15 years of teaching experience, are essential to our success. We believe in a child-centered approach to learning, where each student's unique needs and interests are the focus. A good teacher can inspire a love of learning that stays with students throughout their academic journey. By discovering the excitement of learning, rather than memorizing information, our students develop a passion for knowledge.

Join us this summer for a stimulating and enriching educational experience with our exceptional teachers. Our programs challenge and engage students, while providing a supportive and nurturing environment that encourages them to reach their full potential. Contact us today to learn more about our summer programs and enroll your child in the best possible learning experience.

MATHEMATICS

Age 4 - 10 60 mins

MENTAL CALCULATION

Develop Mental Calculation abilities with ease and confidence in our course. Our teachers teach tricks and shortcuts to improve mental calculation skills, suitable for beginners in addition and subtraction, as well as those looking to master double-digit multiplication. Join us to gain the skills needed for success in Mathematics.

Age 5 - 14 60 mins

Word problems can be challenging for students who struggle to understand their meaning. This course helps students overcome these challenges by exposing them to a variety of problems and simplifying them into solvable types. Students will develop the skills needed to interpret and solve problems efficiently and effectively.

SIMPLE WORD PROBLEM

Age 4 - 10 60 mins

ALGEBRA MADE EASY

Develop algebraic fluency and gain a deeper understanding of algebraic concepts in our course. Our teachers teach students the skills needed to solve equations and manipulate variables and equations, including abstraction and generalization. Join us to enhance your algebraic abilities and excel in Mathematics.

Age 3 - 12 60 mins

The Singapore Math approach to Mathematics uses the bar model strategy. This visual tool helps students draw and visualize mathematical concepts, making problem-solving more effective and adaptable. The bar model can be applied to a wide range of concepts, including complex formulas like algebra. With our instruction, students develop problem-solving skills and become more confident and successful in Mathematics. Join us to enhance your skills with the bar model and become a successful student.

SINGAPORE MATH

ENGLISH

All courses are \$650/lesson

Age 5 - 14 60 mins

Effective writing requires proper grammar for accurate meaning. Punctuation mistakes, capitalization errors, subject-verb disagreements, and run-on sentences detract from a splendid piece of writing. Join our grammar course to empower your writing skills, avoid common errors, and enhance your ability to communicate clearly with your readers.

GRAMMAR RULES

Age 4 - 10 60 mins

WRITER'S EDGE

Experience a writing course that cultivates young, creative, and skilled writers. Students will learn the fundamental structure of different writing types and the five essential steps of the writing process. Our instructors will guide students throughout the course, helping them avoid common sentence pitfalls and grammatical errors to develop strong writing skills and produce polished, effective written work.

Age 3 - 12 60 mins

Phonics Revisit provides a fundamental understanding of phonetics, aiding in reading and spelling. Through practice, you'll decode words and improve your recognition skills, leading to accurate and fluent reading. Our instruction builds confidence and proficiency, developing the necessary skills for success.

PHONICS REVISIT

60 mins Age 3 - 12

REGULAR COURSES

Missed opportunities to raise questions during the school year can lead to knowledge gaps for students. Our regular courses provide students with the opportunity to have a better and in-depth understanding of what they have learned, particularly the trickiest parts of the syllabus. To ensure tailored content, parents can submit areas of weakness before the course begins. We offer courses in Mathematics and English to help students revise and succeed.
